

- 5-layer Cast Stretch Film, Versatile with Consistent Quality to Unitize & Palletize the Cargoes with Better Stretch, Higher Load Retention and Better Puncture Resistance to save packaging costs.
- Suitable for Power Pre-Stretch Wrap, Machine Wrap and Hand Wrap.
- Gives cover to protect against water, dust and moisture during transit and storage, ensures all pallets to be safely transported.
- Even Thickness, Excellent Optical and Cling Properties.

- One Sided Cling, Low Noised Cling or Colored Film also available.
- Exceptional Clarity for easier Product and Label Identification.
- Fully Recycleable.
- Cost effective : Minimum  
150 % Stretch for Hand Wrap  
250 % Stretch for Machine Wrap  
Extra Stretch Performance for Extra Saving

#### Industrial Applications For Stretch Film

- Wrapping of - Paper Rolls
- Large Steel Coils
- Pallet Loads

## SIGNODE CAST 5-LAYER LLDPE COEXTRUSION STRETCH FILM

### Hand Grade

Model No.	Physical Properties			Typical Value		Packing (rolls per carton)
	Thickness (mm)	Width (mm)	Length (M)	Ultimate Stretch Level (%)	Puncture Resistance (Kg)	
CFLD 18/450	0.017	450	410	>230	>1.0	6

### Machine Grade

Model No.	Physical Properties			Typical Value		Packing (rolls per carton)
	Thickness (mm)	Width (mm)	Length (M)	Ultimate Stretch Level (%)	Puncture Resistance (Kg)	
SSO-65	0.017	500	2,000	>270	>1.5	1
SSO-85	0.023	500	1,500	>300	>1.5	1
