

Dispensers for plastic strapping

Accessories

Signode® strapping accessories include strap dispensers, hand tool suspension systems, self-contained strapping kits, edge protectors and Angleboard™ material.

These components can be incorporated into a Signode plastic strapping system. The key is in choosing the particular accessory or combination of accessories that best fit your strapping needs.

DD-1A
Floor model with straproller. Can be suspended overhead.

DF-15
For typical shipping room. Easily loaded.

DF-16A
Floor model with dancer arm.

DF1-12D
For power equipment. Dancer arm and brake.

DO-3D
Can be suspended from a wall or ceiling.
